

@INPROCEEDINGS{565889,
author={Araujo, G. and Sudarsanam, A. and Malik, S.},
booktitle={9th International Symposium on System Synthesis},
title={Instruction set design and optimizations for address
computation in DSP architectures},
year={1996},
month={nov},
volume={},
number={},
pages={102 -107},
keywords={DSP architectures; address computation; address
registers; branch instruction design; code generation; implicit
indirect addressing; instruction set design; minimum overhead; computer
architecture; digital signal processing chips; instruction sets;},
doi={10.1109/ISSS.1996.565889},
ISSN={},}
